# REPORT OF FOREST FIRE WARDEN

Woodland Litter, when dry, is highly inflammable and fires can quickly get out of control. We request your cooperation to control all fires so that lives and property may not be endangered or destroyed, and forests be kept green to furnish the natural beauty we all enjoy and to grow timber we will need.

## WHAT IS "WOODLAND"?

The term "woodland" is defined by law to include, "cut-over land, slash and such other land as bears a sufficient amount of good growth, wood, weeds, grass or other growth as to be likely to be burned over."

When in the woods, you are expected to exercise caution in the use of fire and to remember that

## IT IS UNLAWFUL TO

Throw down lighted matches, cigarettes, or other burning substances from vehicles or otherwise.

Burn brush, rubbish, grass or other materials when the ground is not covered with snow, without written permission from the Forest Fire Warden.

Kindle a camp or cooking fire on land of another without permission from the owner or his agent.

Leave an open fire burning unattended.

Fail to report a forest or brush fire that is out of control.

## VIOLATORS ARE SUBJECT TO THESE PENALTIES

Anyone letting a fire escape from control whether or not he has a permit to kindle the fire, is liable for the costs of extinguishing the fire.

Anyone found guilty of dropping inflammable material in or near woodland shall be fined not more than \$25.

A person failing to report an uncontrolled brush or forest fire is liable to a fine of not more than \$10.

For kindling a fire in woodland of another without permission of the owner, or for kindling any fire without a permit when a permit is required, a person may be fined not more than \$200, or imprisoned 60 days.

## DAMAGES

Every person who shall set fire on any land, that shall run upon the land of another, shall pay to the owner all damages done by such fire.

## BE SURE — GET A PERMIT

Incinerators should be tight, with a close mesh screen, and be on clean ground.

Open fireplaces used to burn rubbish are classed as incinerators.

Always clean a space about an open fire to prevent its spread.

Never burn in dry, windy weather.

Have incinerators inspected by the Forest Fire Warden and get his written permit.

Number of permits, 75; number of fires, one; acres burned, one.

Town Warden, Elwood Dinsmore; District Chief, Robert B. Smith.

# Report of Superintendent

---

*To the School Board and Citizens of Bartlett:*

The September census showed a continued increase in elementary enrollment in both the Intervale and Bartlett village schools. By 1957 the pupil enrollment in Bartlett High School will be so large as to require the services of an additional teacher.

Careful consideration should be given to the need for more adequate classroom facilities for the children of Bartlett Village.

The rise in the budget includes the sum of \$3,000 for an additional teacher at the Intervale School. In 1953 when the enrollment dropped to 42 pupils, we reduced the staff from three to two teachers. With the increased enrollment for the coming year it is again necessary to employ three teachers.

In this time of severe teacher shortage, the Bartlett School District has been fortunate in having seasoned and experienced teachers in most positions.

Bartlett is proud to have as one of its teachers Mrs. Bertha James, who is now the president of the New Hampshire Education Association and has recently co-authored a textbook on elementary school reading.

It is a pleasure to report the increased interest and participation in music. We are employing Mr. Charles Heffernan as Supervisor of Music on a part-time basis.

During the summer the High School Cafeteria was further improved by the building of cabinets along one wall and the purchase of a new table to provide additional seating space. The cafeteria is now adequately equipped and needs only better lighting to complete the remodeling. The exterior of the Intervale School was painted and the floors sanded and refinished. This building will need some repairs this spring as the foundation has settled in one section. Provision has been made in the budget for the outside painting of Bartlett High School.

When the school buildings were inspected by the State Health Department, it was recommended that new lighting be installed in all the classrooms to increase the present 10-15 candle power to a minimum of 35 candle power.

I want to thank the Bartlett P.T.A. for the purchase of the Jungle Gym which has afforded the children many pleasant hours, and for the liquid duplicator which is of immeasurable value to the teachers.

DAVID APPLETON

## REPORT OF THE SCHOOL NURSE

1954 - 1955

-----

The School Health Program is designed to raise the health standards of all pupils; to discover and correct, as far as possible, the development of defects; to dispel a child's fear of dentist and doctor examinations and treatment; to help parents to know where they can go for desired help outside the community, and to make parents more health conscious.

The physical examinations program which was started a year ago by a health committee composed of the doctors, members of the hospital staff and school personnel, was continued again this year. All pupils of grades one, four and seven were eligible to go to the hospital for an examination. This included a check of a pupil's weight and height, urinalysis and a blood test for hemoglobin. The doctor checked each pupil's heart, glands, chest, throat, feet, abdomen, posture and a possibility of hernia. The teeth and mouth were also checked by a dentist. Twenty-four pupils took part in the program and a report of each examination was sent to the parents by mail. As a result of these physical and dental examinations, symptoms of 47 defects were noted. Six of these defects were immediately followed up by the school nurse, who advised the parents to consult with their family physician.

In addition, 38 pupils received a heart examination at Bartlett High School by Dr. John Twaddle before they participated in sports.

In May the pupils are given the Patch Test for tuberculosis. If any possible reaction is evident, or if pupils have come in contact with people who have the disease, a chest X-ray is taken.

Our school program is greatly assisted by the State Department of Health Clinics. The number of pupils who went to the clinics during the year are:

Triple Toxoid, 14; Smallpox Vaccine, three; Polio Vaccine, 32; Guidance and Speech, three; Orthopedic, three; Sight Program, four.

I want to take this opportunity of expressing my appreciation to everyone who has helped to make this program possible.

Respectfully submitted,

JULIA T. COX, R.N.
